You lit me up just like a match  
Then you burned me out just as fast  
You flew me high just like a kite  
Up in the air leaving me there alone in the sky

Why you gotta be so complicated?  
Give me the world and then take it back?  
When I loved you, when I loved you like that

You put my love in a bottle in the ocean  
Thinking you could control the time, yeah  
Just so you could have the feeling  
Of wanting me back one more time  
Yeah

I held you like the morning holds the sun so carefully  
I let you shine  
So wild and free so endlessly  
I gave you every part of me

Why you gotta be so complicated?  
Give me the world then take it back?  
When I loved you, yeah, when I loved you like that

Now you walking in the city streets  
And your cold and you're all alone  
The only thing keepin' you company  
Is the melody in your song

Keep singin' it

Hirsch scotch on the rocks  
And drink your misery down  
Go home and make love to her  
And picture me, picture me, yeah picture me

When I loved you like that  
When I loved you like that  
When I loved you like that  
When I loved you like that  
Oh oh oh

When I loved  
When I loved  
When I loved you like that  
X2

When I loved you like that
