"More Chances To Come"

Everyone is here to try out,
Trying to reach the top,
Like the peak of a mountain,
Finding courage to never stop... never stop

It can appear there are no choices,
When the answers cannot be found,
That's the moment we surrender,
Into the love that is all around... all around

(Chorus)
There are more chances to come,
Many mysteries still unfolding,
There are more chances to come,
With our souls that we are holding
More, chances, to come

We're free to choose our life,
Our strength, our mind, our will,
Let's open up our hearts,
There's so much to fulfill!

(Chorus)
There are more chances to come,
Many mysteries still unfolding,
There are more chances to come,
With our souls that we are holding

More, chances, to come...
More chances to come...
More chances to COME...
