All you ever saw was time,
How long it gonna take for her to break,
Lighting up the night like never before,
So I'm letting go
won't follow you up there, no baby
'cause I see clearly through this madness

(chorus)

I won't rely on this crazy love,
I'll drive away into the distance,
I'll go faster, take the turns harder,
I won't rely on this crazy love

I know what I need this time,
No longer can I hide in the night,
I can walk away like never before,
So I'm letting go
won't follow you up there, no baby
'cause I see clearly through this madness

(chorus)

I won't rely on this crazy love,
I'll drive away into the distance,
I'll go faster, take the turns harder,
I won't rely on this crazy love

Just let me slip away easily,
I don't need to know anything,
Just let me slip away
Got to get away
Gotta understand this time

(chorus)

I won't rely on this crazy love,
I'll drive away into the distance,
I'll go faster, take the turns harder,
I won't rely on this crazy love
'Cause you're a crazy love
