When your sun goes down, honey call me
When you lose your doubt, honey call me
If you're in the mood, honey call me
Oh I never needed anything but I need you
You want attitude, honey call me
When you're all messed up, honey call me
When the world seems new, honey call me
Oh I never needed anything but I need you
Oh I never needed anything but I need you
If you want me I'll be your dancer
Call on me and I will answer
Yes I will answer
Need a place to start, honey call me
Got a skinny heart, honey call me
When it falls apart, honey call me
Oh I never needed anything but I need you
If I let you go, honey call me
Let me take you back, honey call me
I'm a one mind track, honey call me
Oh I never needed anything but I need you
Oh I never needed anything but I need you
If you want me I'll be your dancer
Call on me and I will answer
Yes I will answer
Oh I never needed anything but I need you
Oh I never needed anything but I need you
If you want me I'll be your dancer
Call on me and I will answer
Yes I will answer
