I came all the way from Nashville
Just to have you break my heart
You came all the way from Memphis
Where every ending gets its start
I wish you well
I'm looking for a holiday
Some peace in this world

Giving up on expectations
Cause they only bring you down
I took the high road
Left you laughing
It felt so good to hear that sound
I wish you well
I'm looking for a holiday
I'm looking for a holiday
I wish you well
I'm looking for a holiday
Some peace in this world
Some peace in this world

I wish you well
I'm looking for a holiday
I'm looking for a holiday
I wish you well
I'm looking for a holiday
Some peace in this world
