"Letting Me Go"

I still think of you
When the nights are cold
When I'm all alone
I still feel you near
I'm still learning how
To live with the distance
But my hearts resistance
Forever reminds me
I can't let go of you
Letting go of me
I can't let go of you
Letting me letting me go
I can't get over you
Every part of me
Can't let go of you
Letting me, letting me go
Do you think of me
When you stare at the sky
One by one clouds go by
Like what might have been
Every moment I am haunted by us
What will be and what was
And who knows why it is
CHORUS
Letting me go
You let me go
You're all that I know
