Didn't think I'd feel this  
Thought it'd pass with the days gone by  
But it just goes on growing  
Wide across my land  
I got so used to bein' lonely,  
Didn't think that it could change  
But now I'm staring up at the sky  
And there's no sign of any rain

It's hard for me to trust it  
I'm waiting on the worst to come  
Cause everywhere I've been  
I never thought that I could stay  
I got so used to indecision,  
Didn't think that I could change  
But now I'm staring up at the sky  
And there's no sign of any rain

Everyday can't be rainy  
And everyday the sun can't shine  
But isn't it amazing  
When one goes on and on  
I got so used to repetition,  
Didn't think that it could change  
But now I'm staring up at the sky  
And there's no sign of any rain  
I'm staring up at the sky  
And there's no sign of any rain
