"See How I Run"

Visit "[See How I Run](#)" on MotoLyrics.com

I'm not stopping, waiting on nothing
Moving quickly, trying to catch what's mine
What's destined inside the dreamer
I'll be rushing, making a lot of noise

Take my jacket, all my belongings
I don't need them, they do me no good
They weigh me down, this living is so heavy
And I need space to get on a higher plane

See how I run, you see how I'm running now

Don't start thinking, that's how you'll lose it
You step left, right, you can't get confused
I'll take my chances under the pressure
A risk ain't nothing, there's nothing I can lose

I'm not standing still on this mountain
I'm chasing down what's been haunting me
I'm staring up and into the great heights
I won't look down, it's not where I wanna be

See how I run, you see how I'm running now
See how I run, you see how I'm running
See how I'm running now

Shake me down, I got nothing on me
I won't look back, there's nothing to see
I'm moving quickly, I'm good and I'm ready
And I won't turn around, it's not where I'm meant to be

See how I run, you see how I'm running now
See how I run, you see how I'm running
See how I'm running now

See how I run, you see how I'm running
See how I'm running now
See how I run, you see how I'm running
See how I'm running now
