I'm on a losin' streak
And I've had a few and so did they
I'm used and then it made me good
Charisma in a broken way
See how the glitter faded away
What's in my heart's been rearranged
I've been losin' all the gain
It's the only way to play this game
See how my attitude has changed
I don't remember yesterday
See how the glitter faded away
What's in my heart's been rearranged
Ooh and all the time, I wasted it away
Waitin' around to be saved
And all it did was sit and complain
And nothin' good would come my way
It put it on a losin' streak
Cuz I couldn't make a graceful fall
But somehow I learned to walk this off
I'm grateful I can walk at all
See how the glitter faded away
What's in my heart's been rearranged
And how the glitter faded away
What's in my heart's been rearranged
Ooh and all the time, I wasted it away
Waitin' around to be saved
And all it did was sit and complain
And nothing good would come my way
Ooh put it me a losin' streak
Cuz I couldn't make a graceful fall
But somehow I learned to walk this off
I'm grateful I can walk at all
See how the glitter faded away
What's in my heart's been rearranged
See how the glitter faded away
What's in my heart's been rearranged
