Reach around me, look now you found me  
Moving closer, closer, closer, still  
Want you to surround me, come pull me down deep  
I wanna feel you, feel you, feel you and how you  
breathe  
I wanna feel you, feel you, feel you and how you  
breathe

Speak slowly, let your lips lead  
Softer, softer, softer still  
I'll let it all go, and I'll let my eyes close  
I wanna feel you, feel you, feel you and how you  
breathe  
I wanna feel you, feel you, feel you and how you  
breathe

And I want, I want, I want to give into you  
And oh I want, I want, I want to believe it too  
I want, I want, I want, I want, I want  
to believe it too, believe it too

Reach around me, see how you found me  
Moving closer, closer, closer, still  
And then when I leave, it runs right through me  
I wanna feel you, feel you, feel you and how you  
breathe  
I wanna feel you, feel you, feel you and how you  
breathe  
I wanna feel you, feel you, feel you and how you  
breathe
