When I was little, I sing in my hairbrush all day long
Dressed up with lipstick, I'd mime and dance to a
Whitney song
I watch the Grammys,
Imagine they're calling on my name
Dreaming I was famous like me and Prince on Purple
Rain
Wanted to be the "it" girl on the cover of the Rolling
Stones,
Flying all around the world.
Hear my s-songs on the r-r-radio

Hittin double Platinum
Selling out shows everywhere I go
My face on a thousand
Billboards, Trafalgar Square to Tokyo

Chorus:
Yeah, yeah, wrote it in a misspelled tattoo
I cut my hair and I dyed it blue
Sang a thousand I love yous,
Did what I had to do, somehow I knew,
If you believe in you,
Sometimes dreams come true!
Yeah, yeah, sometimes dreams come true!

I found Youtube, and Youtube found me
I made fans from London, all the way to Tennessee
Looks like I started p-p-p-party, in the USA,
Just a little girl with big dreams
She's still rapping for the UK
Things are changing, some people wanna have a
picture with me,
Aww, man that's crazy!
It's just an average girl with a OCD

Chorus:
Yeah, yeah, wrote it in a misspelled tattoo
I cut my hair and I dyed it blue
Sending a thousand I love yous,
Did what I had to do, somehow I knew,

If you believe in you,
Sometimes dreams come true!
Yeah, yeah, sometimes dreams come true!

I wanna meet Paris, Italy, Germany, Sweden and Rome,
Beijing and Hong Kong, I wanna go party all around the
globe,
... and start my own Broadway show,
Maybe just one day, maybe just one day!

Chorus:

Yeah, yeah
I cut my hair and I dyed it blue
Sending a thousand I love yous,
Did what I had to do, somehow I knew,
If you believe in you,
Sometimes dreams come true!
Yeah, yeah, sometimes dreams come true!
Sending a thousand I love yous,
... somehow I knew,
If you believe in you,
Sometimes dreams come true!
Yeah, yeah, sometimes dreams come true!
La, la, la, la, la!
