You build me up then bring me down
Seems I've tried to understand
You take a hold then you take my hand
Pull me underground

But I can't make up my mind
And all the words I tried
I close the door and wait on something
Like before you leave me nothing

I wanna go down to the beach where you're going
Take me to the place you know
And slowly with me dream the day away

I wanna ride all the waves that show me
Everything I have is lonely
Slowly with me dream the day away

I've thrown away what I have used
And nights I dream the days I'll lose
Can't walk away from what I choose
So I call out for you

But I can't make up my mind
And the words I tried
I close the door and wait on something
Like before you leave me nothing

I wanna go down to the beach where you're going
Take me to the place you know
And slowly with me dream the day away

I wanna ride all the waves that show me
Everything I have is lonely
Slowly with me dream the day away

I call out for you, won't you take me to
The place where you are going to?
And we could dream the day slowly away

I wanna go down to the beach where you're going
Take me to the place you know

And slowly with me dream the day away

I wanna ride all the waves that show me
Everything I have is lonely
Slowly with me dream the day away
