And she dreams  
She's not alone tonight  
But it doesn't seem  
That everything's alright

And she calls out for you  
Before you know  
She's slipping away  
And she's gonna let go  
Before you know  
That you can't stay

She dreams that love is alright  
And she breathes everything inside  
She dreams he's looking in her eye  
But don't you know she feels like

You can't see  
She's waiting there for you  
Places I'd rather be  
If I could only see you

And she calls out for you

Before you know  
She's slipping away  
And she's gonna let go  
Before you know  
That you can't stay

She dreams that love is alright  
And she breathes everything inside  
She dreams he's looking in her eye  
But don't you know she feels like  
Everybody is walking by  
Nobody can see the tears she cries  
And she dreams that love is alright  
And she breathes everything inside

And she dreams  
That love is alright  
But everything inside

And she dreams  
He's looking in her eyes

She dreams. She dreams. She dreams.

She dreams that love is alright  
And she breathes everything inside  
She dreams he's looking in her eye  
But don't you know she feels like  
Everybody is walking by  
Nobody can see the tears she cries  
And she dreams that love is alright  
And she breathes everything inside
