*Resubmitting after condensing text to fit your format better plus any typos corrected also.. but now it fits your format better w/o widening the screen as I hoped it would do.. Pardon any inconvenience, but thought the long phrases would be more of a hinderance than a resubmission of lyrics by same person. thnx, w/regards Karen at slkaren66@yahoo.com
*YES it does fit better!! Am only doing this for sites I regularly submit to under a few but similar names :-)

*Lyrics below the line

=====

It's not the right time, that's what you say
But you're wrong
I'm impatient, 'cuz I know what I want
I can't wait around, 'til you're done
I know she's tall n blonde
But I know I'm the one

You're in love with me n you just don't know it yet
Everyone sees it, but you won't admit
That you're already in too deep n there's no goin' back,
No oh
How much longer are you gonna hide
Make up your mind or you'll run out of time
I know that she's beautiful
But our love's inevitable

You said 'don't ask me about her' that's the rule

It drives me crazy, just the thought of her under you
Why don't you tell her about me??
Tell her the truth (honey)
It would make things a whole lot easier for me n you

You're in love with me n you just don't know it yet

Everyone sees it, but you won't admit
That you're already in too deep n there's no goin' back,
No oh
How much longer are you gonna hide
Make up your mind or you'll run out of time
I know that she's beautiful
But our love's inevitable

[outro]

And like the night turns to day
And like a storm brings the rain
Oh baby, it's inevitable
It's just a matter of time, until you n I will be together

'Cuz you're in love with me n just don't know it yet
Everyone sees it, but you won't admit
That you're already in so deep n there's no goin' back

You're in love with me, you just don't know it yet
Everyone sees it, but you won't admit
That you're already in so deep there's no goin' back
How much longer are you gonna hide
Make up your mind or you'll run out of time
Hey, I know she's beautiful
But our love's inevitable
