Do you some times
Think of me
The way that I'm thinking of you
I pictured us together
And boy how I wish it to be true

So many miles
Just too far away
I try to find the words
But I don't know what to say
Each time you call me up and ask how I've been
Next time I'll see you
My head will surely spin

You're my star
You're my star
Oh baby, you're my star..

[chorus]
You're My Star, Shining At Night
A Million Miles Away But Always By My Side (2x)

You're My Star Shining So Bright
You Take My Breath Away
Baby You're My Light (2x)

Does your heart skip a beat
Each time that I am around
All this time you've been searching for
This thing that is so hard to find

Just maybe you have searched too hard
The dream you may fantasize
And the day it'll be in front of you
You might not realise

[chorus]
Your My Star, Shining At Night
A Million Miles Away But Always By My Side (2x)

Your My Star Shining So Bright

You Take My Breath Away
Baby You're My Light (2x)

Mmh.. You're my star

You drive me crazy 'cause you could be the one
My mister Right
I don't know what you've done
With my mind, with my heart
Right from the very start
You look to me and made me see
Heaven here on earth

You're my star..
