Smile, walk away
Go home & cry
It's just a bad dream

You are a little spoon
You are hippy
You make me happy
With flowers in your hair

So sign the dotted line
Will that be all?
I'll take five
That will be your soul
That would be so good
Will that be all?
That will be your soul

Are they listening?
Do they even care?
Do I give a damn?
It isn't for them
You're a little spoon
And you are hippy
You make me happy
With flowers in your hair

So sign the dotted line
Will that be all?
I'll take five
And that will be your soul
That would be so good
Will that be all
That will be your soul

.: Guitar .:

That will be your soul
That would be so good
Will that be all?
That will be your soul
