I'm looking out of the window  
And there ain't no trace of poison lying there  
But it's all around us  
And every step we take brings us closer to our end  
I can see the end  
And every bite I'm taking  
Is bringing back a fear I can't define  
I can't define, no

Rain falls, rain falls, rain falls  
And you'd better close your eyes  
And what about our children  
Will they be able to enjoy their life like we do today?

Rain falls, rain falls, rain falls  
And you'd better close your eyes

And it's poisoning my dreams  
Nothing's like it seems  
And when I frighten up by night  
I start to cry'

Rain falls, rain falls, rain falls  
And you'd better close your eyes
