

Jester's March

"Start Fighting"

Visit "[Start Fighting](#)" on MotoLyrics.com

I'm looking around, don't like what I see
All the doors have been closed as the night draws near
I feel the suspense, it clings in the air
Takes only a spark to rouse the people out there

No, you can't imprison a whole nation day by day
No, you can't treat them, can't treat'em this way

Start fighting for your lives
Just take what you deserve
Start fighting for your lives
And don't give in

Nom you're trapped again, in chains of gold
They sparkle and shine,
They won't set you free

You're wrong to believe, in all that was told
Hold on to your dreams, don't ever give in

No, you can't imprison a whole nation day by day
No, you can't treat them, can't treat'em this way

Start fighting for your lives
Just take what you deserve
Start fighting for your lives
And don't give in
