I've got too many troubles  
Stains on my body and soul  
I could run keep on running  
Stains and they're starting to show  
I could give it up and never lose control  
She looks good when she's on it  
Health shining out of her face  
I think she could be on it  
Talking like she's just had a taste  
I could give her up and never lose control  
I can't stand this compromise  
Going down slow I'm hypnotised

Just can't shake this messed up scene  
Doing it good on a 3D screen  
Help me please cause I don't know  
Just no way to save my soul
