"Oh well who do we have hear
A fresh specimen
Ah and nice heartbeat
He will be perfect
Now SLICE HIM OPEN LIKE A PIG"

Body dragged to the altar
Chained up to the slab
Up comes the stone knife
Now his life shall end
The knife comes down
Upon his heart
Blood squirts upon the priests
They bathe in it in ecstasy
Rip open his chest
Out comes the heart
Lift it up to the sun
SACRAFICE TO THE SUN GOD

And as his blood flows down the pyramd
They chuck his body into the pit
His heart rots in the sun
Sacrifice to the sun god

The sun goes down for the evening
And will come up for the next slaughter!
