(Unrest)
you were the very first one
you were, the first one
You are the very first one
Making out all over me
you set my nervous hands on
so take me more
You'll take me
You were the first one
and i'd like to say
you were the first one
i'd like you to stay
When I met your stunning Love
your lucid eyes came to life
Come on down to 94
You'll tell me more
& I'll tell you
you were the first one
and i'd like to say
you were the very first one
and i would like to stay
take us down

down on the floor
it's piping hot
so smooth & warm
tell & show
whose bread is who
I will show
& I will be like
you were the first one
and i'd like to say
you were the first one
please please please go away
you were the first one
i'll love you someday
you will be the last one
please come back someday
all the time
& all the day
into your eyes
deeper the day

perfect teeth
in ninety-four
you kiss me more
& i will kiss you
number one
the very first one
