We stand divided  
The cypher of the sick  
If you look you'll find it  
Amplification of the voice may segregate  
Trivia's spray  
Emphasize the rules and meditate  
Look away  
A barrage of multi-compressed hate  
Observe the most incompetent breed deceived  
pollinate the anger more than once  
You must conceive  
Frantic aggravation  
The hidden instinct must be retrieved  
Third eye retaliation  
Suffocate the leaders of the nations  
Disgraced  
The lips are laced  
Execute my limbs just to kick me in the face  
The mutant elements  
Area of descent  
Multiplied by mass of ten  
Smack the simpleton  
The jaw  
Will it descend  
Beware of snakes that you befriend  
Fend off the signs of adversity  
The urgent abnormal desire is  
Forever chasing me  
Bring the cloud of  
Greenpeace fantasies  
Mother of mine  
We rape your lungs  
Constantly  
Separate in views we can't combine  
The theory of our selfish philosophies  
Spreads  
Mother leave us for dead  
Procrastinate  
The blood of life instead  
Harness our wrists  
The tales of we, once pacifist  
Plead soldiers in devour

Lopsided with belief  
Temples deprived  
Like withered flowers  
Stems of hypocrisy  
Disperse  
Redundant with the process  
Reverse up and down  
Backwards in excess  
Infinite struggle  
Of territory  
Liar...Liar...Liar  
Participate in penalties  
Pollutants in feast they now defend  
Tarnished with the most  
Criminal tendencies
