## "The Obvious Destination"

Visit "[The Obvious Destination](#)" on [MotoLyrics.com](http://MotoLyrics.com)

### CHAPTER ONE

Downcast of shadows  
The self denied  
The self denied of hidden places  
Lost passages  
Pure volatile  
Dripping from the cracks that keep you  
Lost in parables  
Convulsions of the epileptic kingdoms that bestow  
Clean  
Thorough  
Antiseptic  
Scrubbing deep into the bone  
Condensing the marrow  
Taste perfected  
The cattle won't disown  
The human man must be inspected  
If i were to touch you  
Would you wither in my arms?  
And if i were to love you  
Would you motion to disarm?  
Sense of warning

### CHAPTER TWO

Rigid from the petrified essence  
Estimated measures  
Celestial  
In my presence  
A stew of precious treasurers  
Reaction from the casualties  
That surround me slithering  
A transparent excess suppressing  
Pull the lever

### CHAPTER THREE

Fall - infected - down

Miracles designed for success  
All of \us

Are you harvesting with the maggots?  
Falling hard with dung on your breath  
Infesting what is pure and damaged  
Like swarms of locust feeding  
Born first  
Still in needing

#### CHAPTER FOUR

Alert the dogs  
Flee  
An expert on penalty  
Without vision the birds of the air will  
Pick at your skull  
Calloused  
Clothed in darkness  
Tragedies  
Turn  
Providing alternatives  
Development  
Additives  
Sediments  
Firm  
Evolving  
Supporting the process  
Dedicated  
Moments of silence

#### CHAPTER FIVE

Quest of the new  
Increasing the magnification of your velocity  
Would this be considered growth  
Through hypocrisy  
Advancement  
Merging with the contents of the universe  
The focus of enhancement  
Evacuate the premises that continue to revolve  
Cluttering of arrangements that continue to dissolve  
You  
Accelerate  
Beyond the surrounding borders  
Maintain the order  
Irradiation  
The newest method of preservation  
Radioactive  
Spastic and down for the cause  
Spoiled by mold  
Nuclear turbines  
Fool injected outlawed  
Newton's third law of motion
