It's your life, do what you want
It's your life, and I'd love to say I couldn't care less
To tell you the truth you know, that I'd
Love to say just something to you
It's my life, and for now, it's still a mess

Don't waste your time asking me
'cause I feel fine
All the times I've been through this before made me
Damn good at this

Take your time, don't hurry back
Ooh, but I didn't mean it
It's only pride that makes me say that

Don't waste your time asking me

'cause I feel fine
All the times I've been through this before made me
Damn good at this

I'm open to suggestion, but
Only those I wan't to hear
Whoa-whoa
Cannot shed a single tear

Don't waste your time asking me
'cause I feel fine
All the times I've been through this before made me
Damn good at -- damn good at this
