

Jesus Jones "Half Up The Hill"

Visit "[Half Up The Hill](#)" on MotoLyrics.com

Half up the hill, as near to you now as I ever will be

All mixed up, nowhere to go
All these remotes but I'm not in control
Out of sight still in reach
Early morning Germans on the beach
I should have said something
What was it stopped me?
So still I know nothing
I'm only...
Half up the hill, as near to you now as I ever will be

Terms and conditions will apply
For not much detail, see inside
Place false hope here
Remain out of the clear
Stuck in the riddle of you
Emotional / personal superglue
I should have said something

What was it stopped me?
So still I know nothing
I'm only...
Half up the hill, as near to you now as I ever will be

Half up the hill, as near to you now as I ever will be

Half
Half
Half

I should have said something
What was it stopped me?
So still I know nothing
I'm only...
Half up the hill, as near to you now as I ever will be
