Please introduce yourself  
Let's shock the world with what we know  
Squeeze the world  
'Til it's small enough to join us heel to toe  
(Heel to toe)

International bright young thing  
Now you know for sure that you make the world swing  
International bright young thing  
Make it swing

High in the air between here and there  
Somewhere anywhere  
(Anywhere but here)  
I feel that I'm always home and I'm  
Never in love  
(Never in love with fun)

International bright young thing  
Now you know for sure that you make the world swing  
International bright young thing  
Make it swing

Asking dragons wishes while  
Sun is making wishes while  
I know he's out there somewhere  
I can [Incomprehensible] you, yeah

I'm so tired I can hardly think  
So I feel instead and let you loose inside my head  
(Inside my head)  
I hear you yelling it to me spelling it out to me  
When I thought I came from nowhere I came from  
everywhere instead  
(Everywhere instead)

International bright young thing  
Now you know for sure that you make the world swing  
International bright young thing  
Make it swing  
Make it swing
