

Jesus Jones "Rails"

Visit "[Rails](#)" on MotoLyrics.com

You live your life like it's on rails
No choice where you go, you're on rails

We stumble through
And I think am I linked up to you
'Cos I can never think of you
Without this sorrow

You live your life like it's on rails
No choice where you go, you're on rails

What can you do
In the face of all your dreams
When your destination's never
Where it seemed, where it seemed

We like to think that we choose our fortune
Like spinning a wheel
But with wheels on the track you tell me
How does it feel?

You live your life like it's on rails
No choice where you go, you're on rails
You live your life like it's on rails
No choice where you go, you're on rails

You live your life like it's on rails
