The princess of my heart, she is someone I know  
She doesn't  
The princess of my heart won't  
Oh but it is my good fortune that she is with me  
I hope she knows, yes she knows, then that

How dark would be my heart if she were taken away?  
The death of a famous name would mean little that day  
I hope she knows, yes she knows, then that

I hear the lynch mob baying  
I  
They  
Heartless ones of a different view  
And I  
Just a few lines to let her know, maybe she knows,  
Yes she knows, then that

The princess of my heart, she is someone I know
