Compromise and confusion steal us away

When they say ignorance is bliss
It makes it sound too good to miss
How about that?
And the problem with success
Is you become what you detest
How about that? How about that?

So who to believe and who do you trust?
Well, it might as well be you
'Cause it seems that no one else has got a clue

Get it wrong, get it right
You can try as hard as you like
But there's no such thing in the world
As the right decision

Get it wrong, get it right
You can try as hard as you like
But there's no such thing in the world
As the right decision
(Compromise and confusion steal us away)

It's okay for you to smoke
Just as long as it's not dope
How about that?
And two wrongs don't make a right
But there's a Gulf where they just might
How about that? How about that?

Suspended by trust, reserved my belief
And did all I could do in the hope
That I might pick up any clues

Get it wrong, get it right
You can try as hard as you like
But there's no such thing in the world
As the right decision
(Compromise and confusion steal us away)

When to serve and protect

Means we may just break your neck
How about that?
And for every question why
There's an answer on the sly
That few will look in the eye
(Few will look in the eye)

Get it wrong, get it right
You can try as hard as you like
But there's no such thing in the world
As the right decision
(Compromise and confusion steal us away)

Get it wrong, get it right
You can try as hard as you like
But there's no such thing in the world
As the right decision
(Compromise and confusion steal us away)
