## "To Get There"

There's little left to fight except the demons inside  
A pandemonium of pride  
The measure of a man, as seen on TV  
All the things that you could be

Just trying to be advert man  
You don't have to dream to get there  
But it's harder than it seems to get there  
Everyone needs something to aim for

It isn't life or death, I'm not searching a soul  
Trying to plug an absent hole  
But it's meaningful to me, trying to find the line  
See how I am defined

Just trying to be advert man  
You don't have to dream to get there  
But it's harder than it seems to get there  
You don't have to dream to get there  
But it's harder than it seems to get there  
Everyone needs something to aim for

All the places that I'd love to be right now  
All the people that I need to see now  
Did the time slip by when I looked the other way  
Think of tomorrow when I should be thinking of today

The measure of a man, as seen on TV  
All the things that you could be

Just trying to be advert man  
You don't have to dream to get there  
But it's harder than it seems to get there  
You don't have to dream to get there  
But it's harder than it seems to get there  
Everyone needs something to aim  
Everyone wants to be better than before
