Well I set sail to find the edge of the planet  
Instead I fell off before I got to the ship  
One morning you'll wake up and you're actually caring  
about all the things that you said you'd never want...  
think about

Doctor, Please!  
There's something wrong with me  
I haven't been this clever  
In what feels like forever  
Surgery won't cut it out of me  
It's spread throughout my body  
So don't you even try and take it out

All my friends wonder how I developed a habit  
To disappear without leaving a trace  
You'll find myself six feet under, boy have I carried  
myself way down

Doctor, Please!  
There's something wrong with me  
I haven't been this clever  
In what feels like forever  
Surgery won't cut it out of me  
It's spread throughout my body  
So don't you even try and take it out

And not a part of me will be left in the room  
No I won't lie to you, when I can die for you  
Whoa, I'm doing better now  
No I won't lie to you, when I can die for you  
YOW!

(Awesome guitar solo)

Doctor, Please!  
There's something wrong with me  
I haven't been this clever  
In what feels like forever  
Surgery won't take it out of me  
It's spread throughout my body  
So don't you even try

So don't you even try to take it out
