It's 12 am
This moment breaks my heart
And so i stitch my lips
From lip to lip so i can keep from you
There's not enough time not enough
To find the cure, there is no cure
I know that she's not an option

I swear there's no emotion
I swear you've got the last shot
I swear there's no emotion
I know she is not an option

It's 3 am
Your blood is thin the aspirin's just setting in

And you can't feel, and you can't feel, and you can't
There is no cure for the fact i care
I know she's not an option

I swear there's no emotion
I swear you've got the last shot
I swear there's no emotion
I know she is not an option

I swear there's no emotion
I swear you've got the last shot
I swear there's no emotion
I know she is not an option
