Here, my dearest friend  
Won't you take this with you to the end  
When all your weapons fail  
And there's no crew left to sail

Just climb the mast  
And bring your best disguise, screaming  
We won't surrender, we won't surrender  
We won't surrender here, we have no fear

And when all of your dreams  
Go belly up  
It seems that you, you took a hit  
And it's time to cash in all your chips

So keep your fingers crossed  
And linger on, screaming  
We won't surrender, we won't surrender  
We won't surrender here, we have no fear

When it feels like  
There's no hope  
And there's no place  
Left to flow

When you're thrown to the air  
On a wing and a prayer  
You must grab it and keep it  
With you, with you, keep it with you, with you
