Ooh, na na na na na
Na na

Can you say we're not together?
Can you say it's all the same in someone else's eyes?
Can you say it gives you pleasure?
That someone's pulling you aside

Now I wanna to find out how you're living outside
yourself
And how you feel like the one that's held it all in place
How you don't feel the shame
You'll never know, you'll never know now
How to let go theis hate or how to hold on

You'll never know, never know now now
Where it all can lead to
Leave it all in the past and move on
Might find your way home
Leave it all in the past and roll on, roll on
Might find your way home, no, no

Can you stray from your direction?
Can you wait outside the door that's opened up for you,
come on?
Can you only see rejection
When I've offered all I have to you?
Are you ever gonna find out

You'll never know, never know now now
Where it can all lead to
Leave it all in the past and move on
Might find your way home
Leave it all in the past and roll on, roll on
You might find your way home, no, no, no

Step back take a closer look
Step back find out where it leads to you
Step back, step back, step back, yea, yea

Never know, never know, know, know
[Incomprehensible]

Never know, never know, know, know
Where it all can lead you to
Leave it all in the past and move on
Might find your way home, no, no
Leave it all in the past and roll on, roll on
You might find your way home, no, no, no
Leave it all in the past and roll on, no, no
Might find your way home, no, no, no, no
Leave it all in the past and roll on
Might find your way home, no, no, no
