Automotive science and engineering
Automotive science and engineering

In the hands of science
The complete appliance
We're moved to motor
We're moved to motor

Do you fly a spitfire?
Do you slide on a tea tray?
Or walk on a short trip, Sundays
Or drive come what may enjoy

Automotive science and engineering
Automotive science and engineering

We're moved to motor
We're moved to motor
Automotive science and engineering

When big was better
And fast was chic
The oil was cheaper
Now we're up the creek

But the Japs are coming
And everyones turbod
(Turbod)
And carbon fibre
Is the way to go, go

Automotive science and engineering
Automotive science and engineering

We're moved to motor
(Automotive)
We're moved to motor
Automotive engineering

Down at the robot factory
Things are humming
Radical suspension

No humans testing

Wind it up, wind it up
Automotive engineering

Take a trip
In your freudian slip
Doctor Ferdinand, ferdie
Has you in his grip

Automotive science and engineering
Automotive science and engineering

We're moved to motor
(Automotive)
We're moved to motor

Automotive science and engineering
Automotive science and engineering
(Automotive)
Automotive science and engineering

We're moved to motor
(Automotive)
We're moved to motor
