"Play In Time"

Visit "[Play In Time](#)" on MotoLyrics.com

Gotta take in what I can
There is no time to do what must be done
While I do some thinking

Sleeping is hard to come by
So we'll all sit down and try to play in time
And we feel like singing

Talking to people in my way
Talking to people in my way

Blues were my favorite color
'Til I looked around and found another song
That I felt like singing

Trying so hard to reach you
Playing what must be played, what must be sung
And it's what I'm singing

Talking to people in my way
Talking to people in my way
