We made love, now you gone
Now you don't wanna claim me no more
Told your boys, you never knew
You never kissed or held me in your arms
How dare you even leave
Me looking like I'm lying on you
When you said it's all about me
I believe it cuz you made believe

1 - If you did it, then you did it
Boy, you don't have to lie
Once you hit, then you hit it
I'm no chick on the side

Just forget it, gon' omit it
Don't you, don't you dare try
You done hit it, you done hit it
More than, more than two times

Repeat 1

You changed your phone, won't call me back
Now I can't even get in touch with you
See how you do, I never knew
That you would deny this love I'm servin' you
That ain't cool, I'm hatin' you
Because you was the first to make the move
Now you say you never knew
You make your boys think that I'm some crazy fool

Repeat 1

Repeat 1

You know we did it, yep we did it boy
Why must you lie?
I drove your whip, you picked me up
You told me, meet you outside
We had some blunts like what the..
Gettin' high in your ride
Getting mushy, want some pussy
Get your biggest supply

Yeah, we did it, you was with it
That was all on your mind
Then you hit it, can't admit it
Then you wastin' my time
I won't forget it, need to quit it
Put it all behind
Why you did it, why you did it
If you gon' have to lie

Bone me, phony
Sex me then you disown me
Homies told me
This is how all dogs will be

Repeat 1
Repeat 1

More than two times
Uh, chicky chicky, uh
