[Chorus:]

So don't you wait
To fake the life you're livin'
Baby break
And after all i've given
Now you take
You take your ear and listen
Everyone else wishin'
This is what you're missin'

Like drive-thru windows
Or e-mail bombs
Like exploding bags of praise
And thanks
Still landing on your lawn
Like a three piece suit
With top hat and cane
Like a cloudy day parade
That never seems to rain

Shot through my chest
This is better than gold

And every line is dedicated
To the story you stole
So forget, and don't regret
All the things that you said
And never settle for the best
You've got less instead

[Chorus]

So fall in (fall out)
Wake up (and leave town)
A rush of blood to the head
Again and you're found out

While some are thinking yes
Still I'm thinking no
It's like my body lost
It's head and it don't know
Where to go

Still you (one, two)

[Chorus (4x)]
