

## Jets To Brazil

### "One More Time"

Visit "[One More Time](#)" on MotoLyrics.com

Sparks fly like an electric shock pushing through my veins  
When we touch, like I never want to stop, do you feel that way?  
Her eyes when they meet with mine is she aware  
That I wanna hold her tight 'cause there's something there

It's gone  
It's past  
We both know it's never coming back  
That's done  
That's over

Does he still love me?  
Do I still love her?

One more time, can we give it just one more try  
To love and be together like the first time  
No love, we can't love, no love, we can't love

Don't back it up  
Not this time

We love to love, can we love to love  
Can't love like you like the first time  
Please love me like the first, first time
