Visit "[Ordinary](#)" on MotoLyrics.com

Can you imagine what this world could be like
If everyone would find a way to see the brighter side
And you can't seem to find a way to make your life less
ordinary
Because you're stuck doing the same thing every day

You don't know, and it's hard to see
Still I know that
There must be something better than this
There's got to be some other way
If you look inside and try, try to find some peace of
mind
You may find a better way

This world can be so cold when you can't even
Find your place
And everytime around you seems to know you're tired
of
Waiting

You don't know, and it's hard to see
Still I know that
There must be something better than this
There's got to be some other way
If you look inside and try, try to find some peace of
mind
You may find, a better way
You may find, a better way

There must be something better than this
There's got to be some other way
There must be something better than this
There's got to be some other way
There must be something better than this
There's got to be some other way
