Fly like a raven, black honey into the night
Soft like the air beneath, a swan in a flight
Then return back home, to bed, bring the dancing stars
Sleep and dream of a white wolf howling and know that
I am near

Shhh. Close your eyes, don't ask why
Let's dream, together you and I
Close your eyes, we will fly, dreaming together you and
I

The moon has sailed in a sliver gown of stars,
It's long, but not forever
Soon her love will rise as mine and sing to the shadows
Tomorrow we will shall rise with the dawn

Kiss the flowers and bloom
But now lie still as the wind and listen
For I will come to you with the footsteps of morning

Shhh. Close your eyes, don't ask why
Let's dream, together you and I
Close your eyes, we can fly, dreaming together you
and I

Dream, Dream, Dream, Dream
