Girl, I think you really know me  
But you're afraid to trust me  
Stop doubting my intentions  
Why, why don't you believe me  
There must be something  
That you don't wanna mention

I said I'd shout it from the mountain tops  
My never ending love, that's what you've got

When the sun don't shine  
And the moon don't glow  
When the rain don't fall  
And the wind don't blow  
When the earth won't spin  
And it's standing still  
That's when I'll be gone

I ain't goin no where  
Not if you won't be there  
I ain't goin no where  
Without you

You  
You're my inspiration  
The only motivation  
I have ever needed  
Dreams  
You know I got one baby  
You and me forever  
Let me jsut repeat it  
(Hey hey hey)

I told you you could always count on me  
What can I do to put oyour mind at ease?

When the sun don't shine  
And the moon don't glow  
When the rain don't fall  
And the wind don't blow  
When the earth won't spin  
And it's standing still

That's when I'll be gone  
When the rivers dry  
And the oceans part  
And there's no one beat  
In a single heart  
That's when I will stop(stop)  
Stop lovin you  
That's when I'll be gone

I ain't goin no where  
Not if you won't be there  
I ain't goin no where  
Without you

When the stars disappear  
That's when I won't be near  
I knew the day I saw ya  
I'd always be there for ya  
Make no mistake, baby love is here

When the sun don't shine  
And the moon don't glow  
Whent he rain don't fall  
And the wind don't blow  
That's when I will stop(stop)  
Stop loving you  
That's when I'll be gone

I ain't goin no where  
Not if you won't be there  
I ain't goin no where  
Without you

When the rivers dry  
And the oceans part  
And there's not one beat  
In a single heart  
That's when I will stop(stop)  
Stop lovin you  
That's when I'll be gone
