Iâ€™ve never seen you look at me this way  
You were just another boy until today  
Iâ€™m goinâ€™ crazy tryinâ€™ to hide it inside  
I looked at you

& than I realized  
That I will never hold another hand  
(Cause I found you) & I will never kiss another man  
(Cause I found you) & I will never ever fall again  
Cause I found you, only you, I found you

Now when it comes to fallinâ€™ you donâ€™t know why  
But when itâ€™s real you feel the butterflies  
Now boy I love you & hereâ€™s the reason why  
I looked at you again for the very first time

Now I know that I will never hold another hand  
(Cause I found you) & I will never kiss another man  
(Cause I found you) & I will never ever fall again

Cause I found you .. only you

& when it comes to love I feel it deep inside  
you makinâ€™ me believe its gonna be alright  
when I hear your voice & when you say my name  
the sweet sweet sound of my sweet sweet name

and everytime we kiss & everytime you lay me down  
I love you, only you

I found youuu  
Now I know that I will never hold another hand  
(Cause I found you) & I will never kiss another man  
(Cause I found you) & I will never ever fall again  
Iâ€™ve got youuu

& everytime we kiss & everytime I lay you down  
I love you, only you  
I found you.. I found you
