"Yesterday's Gone"

You found me on the ground
Broken down and left for dead
I found you all unwound
Saying things that need to be said
I don't wanna wait till tomorrow
Yesterdays Gone
Tomorrow Never Knows
Today Will never be the same again
Were back from the dead
And out on our own
Today will never be the same again
Surround you

Words unbound
Spilling thoughts inside your head
Surrounds me
What's that sound
Lost and i was found you brought me back again
I don't wanna wait till tomorrow
(Chours)
[awesome GUITAR SOLO]
I don't wanna wait till tomorrow
I don't wanna wait
(chours..2x)
Today will never be the same.
