It's already December, it's Christmas everywhere  
It's time to decorate the hearts and tend the trees, and  
I don't  
I'm walking down the street, I see snowflakes fall  
And Johnny in the corner, shopping places and cross  
me suns  
I'm all your faithful peace and love for everyone  
And mamas kissing Santa, but I don't care at all

Ooh, I meant to spend the season with some special  
one  
I went to by him present just to find him gone  
When we first met in January  
Fell in love in February  
March and April walking on air  
Summer lasted till September  
He said goodbye in November  
Here's another Christmas on my on  
Christmas on my own

Every corner there's a Santa he's really come to town  
Like he use to in the good old days but this town  
around  
The sacks a little lighter, but there's nothing there for  
me  
I here the Christmas carols, the silver jingle bells  
Another an noble kiss and I use to love that smell  
For me there be no jester, just a turkey and a tree

Ooh, I meant to spend the season with some special  
one  
I went to by him present just to find him gone  
When we first met in January  
Fell in love in February  
March and April walking on air  
Summer lasted till September  
He said goodbye in November  
Here's another Christmas on my on  
Christmas on my own

And I wrap my coat around me as the snow is flashing  
all-around my knees

And I wish a merry Christmas, to the shiny people  
that I met on 42 street

When we first met in January  
Fell in love in February  
March and April walking on air  
Summer lasted till September  
He said goodbye in November  
Here's another Christmas on my own  
Christmas on my own

On my own  
(Here's another Christmas on my own)  
Here's another Christmas on my own
