Take my life, make it clay  
Shape this life in intricate ways  
I want to be a child of faith  
But what my heart wants most my body turns away  
I push Your ways aside and wonder why I let pride  
decide every time  
But I can't wait to be free  
From this life of mindless sin that compromises me  
I know one day I will be  
There is a victory that You've won for me  
And when You come back again  
I'll be free  
Turn my eyes to Your face  
Let me draw from Your strength  
And bathe in Your grace  
Let me soar with wings to win this race  
Let me have Your peace it's not a hopeless chase  
'Cause I lose sight of all You have called me to be

And it takes so much to drop me to my knees  
But I can't wait to be free  
From this life of mindless sin that compromises me  
I know one day I will be  
There is a victory that You've won for me  
And when You come back again  
I'll be free  
I know one day I will be  
There is a victory that You've won for me  
And when You come back again  
I'll be free  
Take my life, make it clay  
Shape this life in intricate ways  
I want to be a child of faith  
But what my heart wants most my body turns away...  
But I know one day I'll be free...
