Live for the dream follow the dream beautiful dreamer  
Live for the dream follow the dream beautiful dreamer  
Soul singer on the avenue hummin her little tune  
Wishin one day to be everything she dreams  
Her goals so far so unattainable she thinks but i say  
Live for the dream follow the dream beautiful dreamin  
Live for the dream follow the dream beautiful dreamin  
Home boy on the avenue wants love but doesn't have a  
clue  
That there's no clue to it just love just love  
Open up your heart and grab it believe that you can  
have it  
Take it, it's yours it's yours  
Live for the dream follow the dream beautiful dreamin  
Live for the dream follow the dream beautiful dreamin  
Oh I know sometimes that it gets hard  
Running up that road surviving beating the odds  
But you don't have to worry no fear no doubt  
Hold on to the dream, believe, believe believe believe  
Beautiful dreamin  
Live for the dream follow the dream beautiful dreamer  
Dream, dream, dream
