Live for the dream, follow the dream, beautiful  
dreamer

Live for the dream, follow the dream, beautiful  
dreamer

Soul singer on the avenue hummin' her little tune  
Wishin' one day to be everything she dreams  
Her goals so far so unattainable, she thinks but I say

Live for the dream, follow the dream, beautiful  
dreamer

Live for the dream, follow the dream, beautiful  
dreamer

Home boy on the avenue wants love but doesn't have a  
clue

That there's no clue to it, just love, just love  
Open up your heart and grab it, believe that you can  
have it

Take it, it's yours, it's yours

Live for the dream, follow the dream, beautiful  
dreamer

Live for the dream, follow the dream, beautiful  
dreamer

Oh, I know sometimes that it gets hard  
Running up that road, surviving, beating the odds  
But you don't have to worry, no fear, no doubt  
Hold on to the dream, believe, believe, believe, believe

Beautiful dreamer

Live for the dream, follow the dream, beautiful  
dreamer

Dream, dream, dream
