Free like a bumblebee  
Free like the open sea  
Free like a flying dove  
Free like the moon above  
Free like the four letters that spell out L-O-V-E love  
like the  
Second, minute, moment when you hold me only  
Free like the bluest sky  
Free like mountain's eye  
Free like... free like...free like....free like  
Free like the brown in my eye  
Free like the tears that I cry  
Free like...free like....free like... free like  
Free like a willow tree  
Free like a summers eve  
Free like the waves are crashing on the side of a  
solitary beach  
Free like a bumblebee  
Free like the open sea  
Free like the minute, second, moment when you hold  
me closely  
Free like a flying dove  
Free like the moon above  
Free like... free like...free like....free like (fades out)
