If you're upset at your loved ones
Or you're just mad at mankind
Or you just need some money
Of great hall one day you would sign
You can go to Ohio
Solemnly go there for work
But do yourself a favour
Don't end up in for work

Better not kill in Texas
Whatever you do
Better not kill in the Lone Star State
They just love to kill you

Even if you had a bad childhood
And your dad mess with you at night
Even if you're real sorry
Even if you're pretty or white
Even if you say you love Jesus
Or the doctor said you're real sick
Well you can get off and board the Colorado
But they'll fry your ass in the bed

Better not kill in Texas
Whatever you do
Better not kill in the Lone Star State
They just love to kill you

Better not kill in Texas
Whatever you do
Better not kill in the Lone Star State
They just love to kill you

Oh you better not kill in Texas
Whatever you do
Better not kill in the Lone Star State
They just love to kill you
